FIRST AID
Risk Policy

Having reviewed the general nature of accidents and incidents in our Practices and Head Office, the nature of the activity and the numbers of team members normally working at the premises, the assessment is that we fall into a low-risk category and as such we only require an 'Appointed Person'.

In our Practices the 'Appointed Person' would generally be the Shark / FISH (except for people who have a valid reason for not wanting this role) to ensure coverage for every opening hour.

We are not required to provide first aid to members of the public; however, our policy is to make this available to patients if required.

Responsibilities of First Aiders / 'Appointed Person'

It is important to remember that the 'Appointed Person' is not a first aider, and they should not attempt to give first aid for which they have not been trained.

There is no legal requirement for an 'Appointed Person' to be trained in first aid and 'Appointed Persons' should NOT give first aid for which they have not been trained.

The duties of an 'Appointed Person' are:

- To attend and take charge of any accident or injury, including calling an ambulance, if needed.
- Ensure all accidents are recorded.
- Ensure all First Aid boxes and first aid equipment are kept adequately stocked and maintained.

An 'Appointed Person' is fully insured when they are undertaking their first aid duties, on behalf of, and whilst employed with the Hakim Group. Basic Advice on First Aid at Work and What to do in an Emergency is available from Help Hub / Health & Safety
